These folks ♥ Semaphore.

SB Simply Business

- ✓ Build times cut by 80-83%
- ✓ 20% savings with custom triggers

Jenah Blitz
Software Engineer

[Watch case study ↗](#)

BetterUp

- ✓ reduced costs
- ✓ fast builds 8-minute test suites

Amin Ben Slimen
Senior Software Engineer

[Watch case study ↗](#)

hunter

- ✓ simplicity & cost-effectiveness
- ✓ robust features and support

Bartosz Łęcki
Lead Engineer

[Watch case study ↗](#)

simplepractice

- ✓ 25% reduced CI costs
- ✓ 15-20% reduced build time

Kevin Ceballos
Senior Software Engineer

How Semaphore works

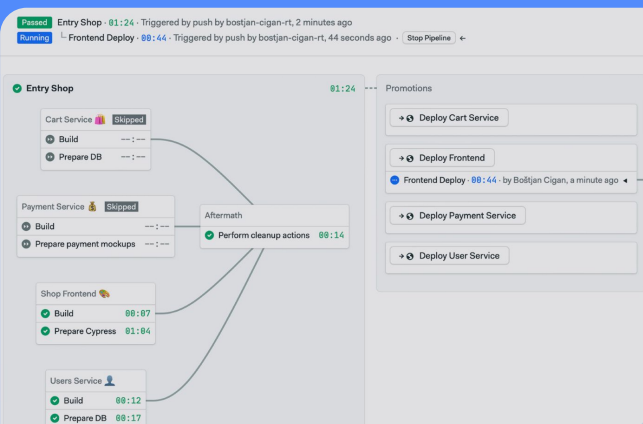

Flaky Tests Dashboard

- ◆ Fix Unreliable Tests – Identify and resolve flaky tests.
- ◆ Save Time – Focus on the most impactful issues.

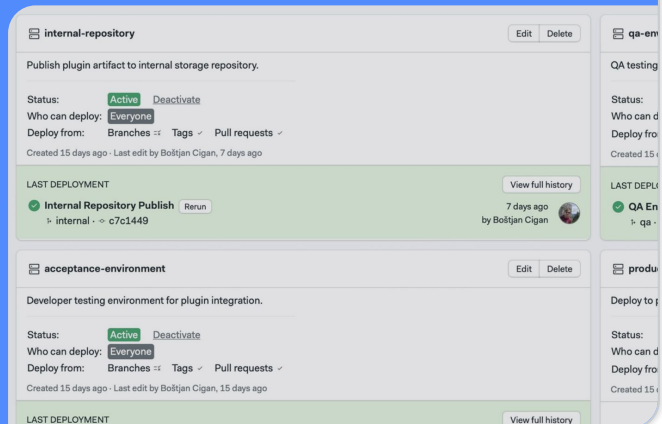

Monorepos Support

- ◆ Smarter Builds – Trigger only relevant parts of your monorepo.
- ◆ Faster Workflows – Minimize build times with targeted updates.

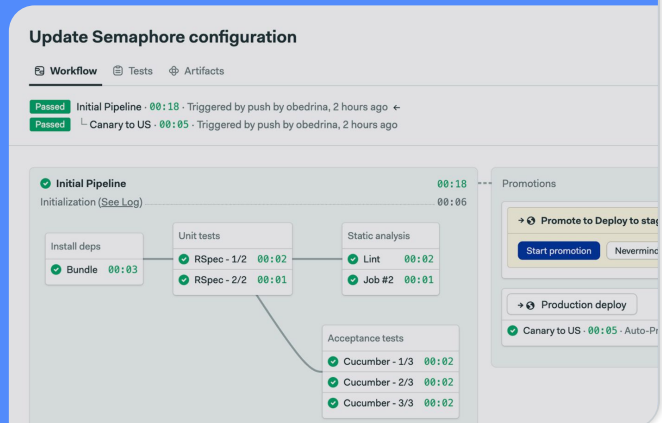

Deployment Targets

- ◆ Secure Deployments – Control access and set conditions.
- ◆ Simplified Management – Ensure compliance with ease.

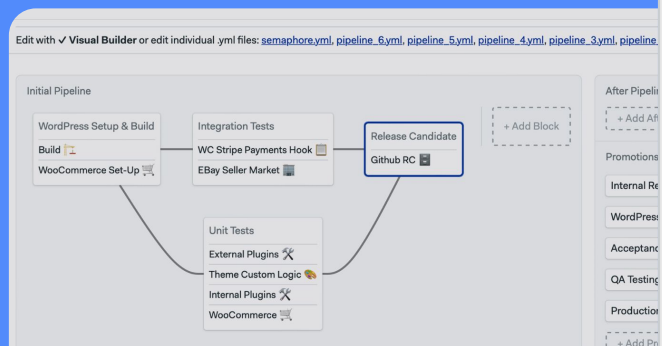

Promotions

- ◆ Automate Deployments – Streamline updates in test environments.
- ◆ Control Releases – Add approvals for critical stages.

Visual Workflow Builder

- ◆ Design Pipelines Visually – Model workflows with ease.
- ◆ Auto-Generate YAML – Simplify configuration setup.
- ◆ Onboard Faster – Get visual performance feedback.

We're all in on open source.
No hidden tricks, just **powerful
CI/CD that works**. Ready to
run it yourself? **Install now.**
